ABOUT US

Established in 2001, **Saral Timber Saw Mill** is a trusted supplier of high-quality timber for both the **construction and packaging industries**. With **25+ years of experience**, we specialize in premium **wooden pallets, boxes, hardwood, softwood, eucalyptus poles, bamboo, and custom timber sizes**, crafted for strength and long-lasting performance.

Led by **Dinesh Shukla, Akansha Shukla, and Anil Shukla**, we take pride in delivering products that stand for **strength, reliability, and trust**. Equipped with **4 vertical saw machines, 2 horizontal saw machines**, and a large warehouse, we ensure accurate cutting, **bulk production**, and **timely delivery** for every order.

Serving builders, contractors, industries, packaging units, and exporters, Saral Timber Saw Mill continues to provide **durable, sustainable, and superior-quality wood solutions** that support every project with confidence.

OUR MISSION:

Our mission is to deliver high-quality wooden products that meet the needs of both the construction industry and the packaging sector. We aim to offer durable, safe, and reliable timber solutions including hardwood, softwood, pallets, boxes, and custom sizes. With a focus on precise cutting, bulk production, and timely delivery, we strive to build long-term relationships by providing customized solutions and exceptional service to builders, contractors, industries, exporters, and packaging factories.

OUR VISION:

Our vision is to be a leading and trusted supplier of premium timber and wooden packaging solutions for construction projects, industrial applications, and packaging requirements. We aim to set industry benchmarks in quality, innovation, reliability, and sustainability, serving diverse sectors with superior wood products while promoting responsible sourcing and eco-friendly practices

OUR MOTTO:

Our motto, "Strength That Supports All," reflects our promise to deliver timber that reliably supports every need whether it's heavy-duty construction or secure packaging. We craft every product to offer long-lasting durability, stability, and performance. This belief guides us to supply wood that not only builds strong structures but also protects goods, strengthens businesses, and supports our clients with trust and excellence.

WHY CHOOSE US

Construction & Infrastructure Experts

4

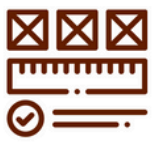

Accurate Cutting & Finishing

5

Wide Range of Wood Products

6

Customized Sizes Available

7

Bulk Production & Large Stock

8

Timely Delivery Guaranteed

9

Trusted by Leading Industries

10

PRODUCTS OVERVIEW

INFRASTRUCTURES PRODUCT & SOLUTIONS

COUNTRY WOOD – HARDWOOD

Wood is classified into hardwood and softwood. Hardwood is stronger and more durable, ideal for construction and structural work.

Small pieces under 5"×5" are called lumber for home and light use, while large pieces over 8"×8" are beams used in heavy structures like bridges and building frames.

We offer premium hardwood species: Sal, Ain, Arjun, Chakunda, Siris, Eucalyptus, Imli, Mango, and Neem.

BENEFITS

- ✓ High load-bearing capacity
- ✓ Weather and impact resistant
- ✓ Perfect for long-term durability
- ✓ Flooring and decking
- ✓ Heavy infrastructure projects
- ✓ Flooring and decking

Silver Oak Wood

Silver Oak Wood is a strong, durable hardwood widely used in construction and industrial packaging. Its smooth texture and stable performance make it ideal for both structural and commercial applications.

At Saral Timber & Saw Mill, we provide premium Silver Oak precisely cut, smoothly finished, and available in custom sizes. Whether for construction, heavy packaging, or industrial use, our Silver Oak delivers strength, reliability, and long-lasting value.

BENEFITS

- ✓ Beams, slabs, and column construction
- ✓ Bridge formwork and heavy-duty structural work
- ✓ Shuttering and formwork systems
- ✓ Underlay for shuttering plywood
- ✓ Long Life & Reusable
- ✓ Lightweight Yet Strong

Eucalyptus Poles

Eucalyptus Poles are strong, straight, and highly durable commonly used in construction, fencing, scaffolding, plantations, and industrial projects.

At Saral Timber & Saw Mill, we supply high-quality, well-seasoned poles with excellent strength and long life. Available in various lengths and diameters, our poles are carefully selected and treated for stability, high load capacity, and safe handling across all applications.

BENEFITS

- ✓ Ideal for scaffolding, construction support, and heavy-duty tasks.
- ✓ Makes installation easier and more stable on construction sites.
- ✓ Provides strong performance at an economical price.
- ✓ Eucalyptus is fast-growing and considered a renewable timber source.

Imported Pinewood Log & Lumbers

Imported Pinewood is a strong, lightweight, and versatile softwood used in construction, packaging, and industrial products. At Saral Timber & Saw Mill, we source premium Pinewood from New Zealand, Australia, Europe, and the USA, ensuring consistent quality.

Available in round logs and custom-sawn sizes, it is smooth, easy to work with, and naturally resistant to warping—perfect for export pallets, wooden boxes, framing, joinery, and furniture parts.

BENEFITS

- ✓ Bridges & infrastructure work
- ✓ Large wooden structures
- ✓ Construction support beams
- ✓ Strong and highly durable
- ✓ High load-bearing capacity

Film faced Shuttering plywood & commercial plywood

Film Faced Shuttering Plywood is a high-quality plywood specially designed for construction formwork, where concrete is poured for slabs, beams, columns, and structural works. Its tough build, waterproof surface, and smooth film coating help create a clean, mirror-like finish on concrete. Shuttering plywood is valued for its strength, reusability, and stability, making it suitable for repeated use depending on density and handling.

Commercial Plywood is a versatile plywood used for general carpentry, interior work, partitioning, furniture base, and light construction needs. It is lightweight, easy to handle, and provides reliable performance for residential, commercial, and industrial applications.

At Saral Timber and Saw Mill, we supply premium Film Faced Shuttering Plywood and Commercial Plywood in multiple thicknesses and grades to support construction contractors, builders, industries, and packaging requirements across India.

Bamboo

Bamboo is a strong, flexible, and eco-friendly material widely used in construction support, scaffolding, fencing, and agriculture.

At Saral Timber & Saw Mill, we supply high-quality, straight, and durable Bamboo poles ideal for multipurpose use. With its great strength-to-weight ratio, Bamboo is reliable for formwork, plantations, site barricading, and temporary structures offering a long-lasting, cost-effective solution for construction and farming needs.

BENEFITS

- ✓ Strong & Lightweight
- ✓ Cost-Effective
- ✓ Easy to Install & Move
- ✓ Construction scaffolding & support
- ✓ General industrial and utility applications

PACKAGING PRODUCT & SOLUTIONS

Steel packaging woods

Railway packaging

Steel Packaging Woods

Saral Timber Saw Mill supplies strong and reliable steel packaging wood, including Railway Sleepers, Wedges, and Vertical Base Woods, trusted by leading steel companies across India. With 25+ years of experience, we deliver high-strength, durable, and accurately sized timber for safe packaging of coils, sheets, rods, machinery, and heavy goods. Our strong supply chain ensures fast and uninterrupted delivery.

Wedges

Wedges are triangular wooden blocks used to secure steel coils during packing and transport. They prevent rolling, shifting, and movement, ensuring safety in handling, storage, and transit.

Wooden Pallets for Packaging

Crates -

Crates are also fabricated in any size and design for safe and secure packaging.

Plywood Pallets

We manufacture custom plywood pallets in any size and design with two-way or four-way entry as per customer requirement.

Standard Sizes Available:

- 1200 × 1200 × 135 mm
- 1200 × 800 × 135 mm
- 1000 × 800 × 135 mm

Types:

- OB – Open Boarded
- CB – Close Boarded

Plywood Boxes

We manufacture custom plywood pallets in any size and design with two-way or four-way entry as per customer requirement. dismantle type as per customer needs.

3-Piece Box:

Top lid, sleeve, and base with pallet.

4-Piece Box:

Top lid, two L-shaped side panels, and base with pallet.

6-Piece Box:

Top lid, two length panels, two width panels, and base with pallet.

Ideal for small and medium industrial shipments, providing strong protection during storage and transportation.

Imported Pinewood for packaging

Imported Pinewood is widely used for industrial and export packaging because of its lightweight strength and smooth finish. At Saral Timber and Saw Mill, we supply high-quality Pinewood for pallets, boxes, runners, custom packing needs and components suitable for machines, steel products, and export shipments.

Processed wood materials like plywood, OSB, and veneer are manufactured using heat and pressure, making them durable and ideal for long-distance transport. With over 85 countries following ISPM-15 standards, our Pinewood packaging solutions support safe and compliant international shipments.

Silver Oak Wood for Packaging

Silver Oak Wood is a strong, durable, and high performance timber widely used for industrial packaging, truck platforms, and centering work. At Saral Timber and Saw Mill, we supply premium-quality Silver Oak wood and custom wooden boxes designed for packing heavy machinery, export goods, and high-weight materials.

Our Silver Oak packaging boxes are known for their strength, stability, and long service life, making them ideal for long-distance and international shipments. We also offer heat-treated and chemically treated Silver Oak boxes as per customer requirements, ensuring compliance with export standards. With consistent quality and competitive pricing, we deliver reliable Silver Oak packaging solutions trusted by industries across India.

Country Wood for Packaging

Country Wood is a strong and durable hardwood ideal for industrial and export packaging. At Saral Timber Saw Mill, we manufacture high-quality Two-Way and Four-Way Country Wood Pallets using premium-grade timber for maximum strength and stability.

Produced with accurate sizing and advanced cutting techniques, our pallets are suitable for heavy machinery, steel products, manufacturing units, and long-distance shipments. Supplied across India at competitive prices, our Country Wood Pallets offer reliable support, long life, and consistent performance for all packaging needs.

SAWMILL MACHINERY & PRODUCTION CAPACITY

Sawmill Machinery & Production Capacity

At Saral Timber and Saw Mill, our production unit is equipped with advanced Vertical and Horizontal Sawmill Machines that ensure accurate cutting and consistent quality. We operate with 4 high-performance vertical sawmills and 2 horizontal sawmills, allowing us to process timber efficiently and in large volumes.

With a dedicated warehouse for storage, we maintain a strong inventory to support continuous operations. Our infrastructure enables bulk production, timely supply, and reliable delivery for all construction, packaging, and industrial timber requirements.
